#### **Contents**

- 1 Calling Instructions
- 2 Agenda
  - ♦ 2.1 News, Notes, & Miscellaneous Fun Stuff
  - ♦ 2.2 Featured Presentation [ Rupa Schomaker mod memcache, mod cidlookup ]
  - ♦ 2.3 Upcoming Presentations
  - ♦ 2.4 Items Needing Discussion
  - ♦ 2.5 Janitorial Items
  - ♦ 2.6 Items Needing Documentation
    - ♦ 2.6.1 Stuff started but needs some community input
    - ♦ 2.6.2 Stuff yet to be documented
  - ♦ 2.7 User Tips & Tricks
  - ♦ 2.8 Suggestions For Future Meetings & Future To Dos
    - ♦ 2.8.1 Presenters Needed For These Topics
- 3 Need Sip Trunking or DIDs?

# **Calling Instructions**

**UPDATE:** New meeting time Wednesday June 23th at 1800 UTC (1200 CST / 1pm EST) sip:888@conference.freeswitch.org or via the good old PSTN at +1-919-386-9900 Or click on this link

Or call Skype the skype user "skypiax5", you'll be automatically connected (max 20 concurrent users). Codecs: PCMU/PCMA, G.722, CELT, Speex, Skype, among others

Press 0 to mute/unmute your self. Press \* to deaf/undeaf.

# **Agenda**

Please add agenda items as needed. If you have a question you'd like to ask then edit the **Items Needing Discussion** section below. Be sure to put your name/nick on your question.

#### News, Notes, & Miscellaneous Fun Stuff

- FS book update Release for July
  - ◆ Latest news from MSC, if any
- What are the Beeps in the conference? One Beep someone has joined, two beeps someone has left.

# Featured Presentation [ Rupa Schomaker - mod\_memcache, mod\_cidlookup ]

• June 23, 2010 - Rupa Schomaker - discusses mod\_memcache, mod\_cidlookup

Agenda 1

## **Upcoming Presentations**

The dates for the following presentations are subject to change, so you need to check back.

- June 23, 2010 ?? Rupa Schomaker discusses mod\_memcache, mod\_cidlookup
- June 30, 2010 Anthony Minessale, how important it is to come to cluecon and register now? And other stuff..
- June ??, 2010 DRK mod\_managed CDRs for billing purposes, keeping track of everything
- July 7, 2010 ????

# **Items Needing Discussion**

- FreeSWITCH Training! (dschreiber)
  - ♦ ALL SOLD OUT Congrats to Darren for pulling it off
- ClueCon Update
  - ♦ Get yerself registered
  - ◆ Speakers contact MSC or BKW ASAP for scheduling
- Tell MSC if the wiki search box works any better. :P

#### **Janitorial Items**

- <u>Chan vars</u> let's crowdsource the descriptions of these vars
- Need wiki volunteer: create wiki page.pl script
  - ♦ auto create new pages for chan vars, APIs, modules, etc.

## **Items Needing Documentation**

#### Stuff started but needs some community input

- Most important documentation task: T.38. Please see the email thread, especially bkw's comments.
  - ♦ Please add content to this page: <u>T.38</u>
- Verfify these definitions for accuracy:
  - ♦ <u>uuid simplify command</u>
  - ♦ sip auto simplify channel variable
  - ♦ <u>vm-enabled user parameter</u>
  - ♦ modules.conf.xml 'critical' attribute

#### Stuff yet to be documented

- New API: sofia\_count\_reg
  - ◆ FYI, I couldn't get this to work could someone test?
- New channel variable: 'direction' (commit msg)
- New conference param: terminate-on-silence (<u>commit msg</u>)

- Verbose events:
  - global param verbose-channel-events, fsctl verbose\_events [onloff]
  - ♦ commit msg
- New "disable hold" feature:
  - ♦ disable hold channel variable
  - ♦ disable-hold profile param
  - ♦ (commit msg)
- Channels to check if you have been auth'd:
  - ♦ sip acl authed by
  - ♦ sip\_acl\_token
  - ♦ commit msg
- New mod\_loopback chan var: loopback\_bowout\_on\_execute (<u>commit msg</u>)

## **User Tips & Tricks**

If you have something you'd like to share with the community then by all means add it here and we will give you a few minutes on the conference call to discuss it!

Easy way to install FreeSwitch under CentOS

Just type the follow

```
yum install wget -y
cd /usr/src && wget http://www.freeswitch.org/eg/Makefile && make
```

## **Suggestions For Future Meetings & Future To Dos**

#### **Presenters Needed For These Topics**

- SIP 101 (beginning SIP, how does it work, how to look at different SIP packets)
- NAT traversal debugging in FS environments (when to use autonat, how to diagnose your NAT routers, etc.)
- mod\_shout/shoutcast, esp with one-way conferences for scalability
- Codec negotiation early vs. late, why you need it, how to do it

# **Need Sip Trunking or DIDs?**

If you are looking for Sip Trunking, Origination or Termination please visit <a href="http://www.VoiceNetwork.ca">http://www.VoiceNetwork.ca</a>

- Unlimited Incoming DIDs from \$3.95
- Per Minute DIDs from \$0.99 @ 0.011 per minute
