Short Pages

Special:Shortpages

Some pages should just be redirected to other pages, do it with:

```
#REDIRECT [[pageName]]
```

Lonely/Orphaned Pages

Special:Lonelypages

- Also, pages that are linked-to, but have no link back to the referring page
    - e.g. http://wiki.freeswitch.org/wiki/Freeswitch_XML-RPC

This matters for those times when you search for something (like "xmlrpc") and land at the above page but have nowhere else to link to for more information
